

Annex 11 (cont.): European Farmland Butterfly Species (IEEP 2007)

The following butterfly species are considered indicators of HNV Farmland habitats and are either species of conservation concern or are present in high abundance in these habitats¹⁴.

This list was drawn up by the EEA/JRC in their mapping approach of HNV Farmland areas (Paracchini *et al.* 2006) using Van Swaay, C. & Warren, M. (2003), 'Prime Butterfly Areas in Europe: Priority Sites for Conservation', Wageningen, The Netherlands. The contributions of De Vlinderstichting (Wageningen) are acknowledged. The final list has been revised following consultation with the Member States.
